FIFA Rules used with the following exceptions:

Heading (7v7) and (9v9 U11).

Deliberate heading is not permitted in 7v7 games or 9v9 U11. If a player deliberately heads the ball in a game, an indirect free kick should be awarded to the opposing team from the spot of the offense. If the deliberate header occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred.

Build Out Line (7v7).

The build out line promotes playing the ball out of the back in a less pressured setting. When the goalkeeper has the ball in his or her hands during play from the opponent, the opposing team must move behind the build out line until the ball is put into play.

Once the opposing team is behind the build out line, the goalkeeper can pass, throw, or roll the ball into play (punts and drop kicks are not allowed). After the ball is put into play by the goalkeeper, the opposing team can cross the build out line and play resumes as normal. The opposing team must also move behind the build out line during a goal kick until the ball is put into play. If a goalkeeper punts or drop kicks the ball, an indirect free kick should be awarded to the opposing team from the spot of the offense. If the punt or drop kick occurs within the goal area, the indirect free kick should be taken on the goal area line parallel to the goal line at the nearest point to where the infringement occurred. The build out line will also be used to denote where offside offenses can be called.

Players cannot be penalized for an offside offense between the halfway line and the build out line. Players can be penalized for an offside offense between the build out line and goal line. Ideally, the goalkeeper will wait to put the ball into play once all opponents are past the build out line. However, the goalkeeper can put the ball into play sooner but he or she does so accept the positioning of the opponents and the consequences of how play resumes. To support the intent of the development rule, coaches and referees should be mindful of any intentional delays being caused by opponents not retreating in a timely manner or encroaching over the build out line prior to the ball being put into play.

Coaches are responsible for addressing these types of issues with their players.

Referees can manage the situation with misconduct if deemed appropriate. Referees should be flexible when enforcing the six second rule and counting the time of possession should only begin when all opponents have moved behind the build out line.

- On a goal kick, a defensive free kick inside the penalty area, or when the goalkeeper has possession of the ball with their hands, the opposing team must move behind the build-out line until the ball is put back into play.
- The goalkeeper can pass, throw, or roll the ball to put it back into play (punts and drop kicks are not allowed).
- On a goal kick, a defensive free kick inside the penalty area, or when the goalkeeper has possession of the ball with their hands, the opposing team may cross the build-out line when:
 1. The goalkeeper changes possession from their hand to play the ball with their feet, or
 2. The ball comes to a complete stop, or
 3. The ball crosses the buildout line.

Forfeits:

Teams not on the field ready to play with a minimum number of eligible players at the scheduled game time will forfeit the match at the discretion of the tournament director. Forfeited scores will be counted 5 – 0. Teams forfeiting games will not be able to advance to the playoff rounds.
